

Sprint #2 Planning

Overview

Sprint #2 initiates the development of Bin Management and Calendar UI features, selected due to their independence from database modifications in user tables. In addition to starting the transformation of project plans into functional elements, this sprint involves reorganizing the Trello board. New cards will be added, and the board adjusted to align with the sprint's feature goals, establishing a foundation for the waste management solution.

Sprint Goals

- 1. Complete tasks independent of database changes on the user tables which will be done by Team GR-Koala
 - a. Bin Management
 - b. Calendar UI

	User Story ID	Story Points
	US102	3
	US104	6
	US203	4
	US208	4
Total	4	19
